

I had listened to a Christian radio station in St. Louis and when I moved to CO I couldn't find one. By happen-stance I came across K-Love [91.1]. This station is the ONLY station I have listened to in the car & at home for the past 2 1/2 years. The songs say the words to the Lord that I can't find to say on my own. They encourage me, change my attitude and give me the strength & courage to be ever ready to speak the Word when presented with a chance. There is not another station like this in this area! Christain songs can reach into the hearts of all ages when spoken words sometimes can not. I have recommended this station to "many" friends and will continue to do so. I also donate to K-Love as a thank you for the strength and hope it gives me. Please fight to keep this station on the air in this area!
